

JUNIOR SUBJECT OPTIONS

Year 9 and 10 students will study subject options alongside five core subjects: English, Mathematics, Social Studies, Science, and Health & Physical Education.

DANCE - Dance at Fraser offers you the opportunity to learn about a variety of dance types, and develop skills in analysing, performing and choreographing.

DIGITAL TECHNOLOGY - Digital Technology offers you a variety of digital literacy skills, from coding to using a range of computer software programmes.

DRAMA - Do you love performing? Drama allows you to explore different styles of theatre, and the confidence to create and perform your own scripts/plays, and how to bring them to life.

ENTERPRISE STUDIES - Year 10 only. Learn business and personal finance skills through hands-on learning. You will plan, create, and run a business for Market Day, building confidence and entrepreneurial skills.

FOOD TECHNOLOGY - In Food Tech, you will learn how to work with others in a commercial kitchen environment, and how to plan, prepare and cook meals whilst learning healthy eating, safety, and hygiene requirements.

GRAPHICS & DESIGN - Graphics allows you to use your imagination and problem-solving skills in a range of challenging design projects.

HORTICULTURE - Horticulture provides you with many experiences and skills to help you understand how to grow, maintain and collect your own produce.

MUSIC - Do you love the idea of making your own music? At Fraser, you can learn how to play, read, create and perform many styles of music.

PACIFIC STUDIES - Learn the Samoan language and culture through traditional music, food, dance and games.

TE REO MAAORI - Explore Te Reo Maaori through tikanga (customs), waiata (song), keemu (games) and kai (food).

VISUAL ART - Visual Arts allows you to express your creativity in many different ways: Drawing, Painting, Design, Photography, Mixed Media, Sculpture, and Printmaking.

WORKSHOP TECHNOLOGY - If you love to work hands-on with wood, metal and plastic, then Workshop is for you. A practical subject which will challenge your creativity and problem-solving skills.
